

# DEVELOPING A GREENER TOMORROW, TODAY

The UKA Group is an international wind and solar energy developer with 880 employees. With more than 60 constructed wind farms and 1.2 gigawatts in the permitting process, UKA is one of Germany's leading onshore developers. As a full-service provider, UKA offers turnkey services from greenfield development to construction. The UKA Group's international project pipeline for wind and solar projects comprises more than 19 gigawatts. Our dedicated teams in Chile, Spain, Poland, Italy and the U.S develop promising renewable energy projects and hence advance the global transition towards clean and affordable energy solutions.

## LOCATION SANTIAGO DE CHILE

Starting immediately  
or as agreed

A company is only as good as its employees. That's why we don't care about sex, skin colour, religion or background. When it comes to being able to succeed in the renewable energy industry of the future, we are exclusively concerned with commitment and competence. As a team member, you can expect challenging and future-oriented jobs, appreciation for your teamwork and performance-related compensation.

Please submit a complete application, along with your availability and salary expectations.

## ASSOCIATE ATTORNEY

### THE ROLE:

- Provides daily advisory assistance across multiple company departments, with a focus on bolstering project development and pipeline progression
- Prepares and reviews legal documents essential for project development and company operations, including title studies, due diligence reports, public deeds, land lease, easement and interconnection agreements, among others.
- Supports contractual negotiations with project and corporate stakeholders, including but not limited to landowners, communities, utilities as well as equipment suppliers and service providers
- Implements contract management processes by registering, systematizing, and organizing land control documentation as well as associated contractual obligations.
- Offers legal guidance and support in navigating corporate affairs, encompassing mergers, acquisitions as well as other strategic transactions, ensuring regulatory compliance and alignment with corporate best practices
- Provides assistance in legal proceedings such as hearings, arbitration or litigation that impact the company, ensuring the safeguarding of its legal and commercial interests through adept analysis, strategic guidance, and proactive measures.
- Extends legal support in formulating internal procedures and protocols, guaranteeing adherence to regulatory standards and fostering operational efficiency.
- Monitors legislative and regulatory developments and advises management on operational and corporate impacts
- Oversees external legal services to leverage specialized expertise and support in navigating complex legal matters

### THE INDIVIDUAL:

- Chilean law degree and associated title conferred by the Supreme Court
- At least 5 years of demonstrated, legal experience in Chile's energy sector with a record in land control management and project development
- Business proficiency in Spanish and English. Additional third languages such as German or Portuguese are a plus.
- Must be proficient in Microsoft: Word, Excel, and Outlook.
- Openness to business travel
- Driver's License, category B

### OUR OFFER:

- An interesting, multifaceted and sophisticated job in a future-oriented company
- Development and promotion opportunities in our steadily growing international business
- Friendly and supporting working atmosphere
- Centrally located and modern office space
