

BE PART OF OUR TEAM

The UKA Group is an experienced developer, owner and operator of wind farms in Germany, who entered the US-market in 2016. Currently, we are looking for talented personnel to complement our US team and to develop successful wind and solar projects in North America.

We are looking for highly skilled and motivated candidates in the fields of:

- Project Management
- Project Acquisition
- Project Development

Applicants must have a Bachelor's or Master's degree in either:

- Engineering
- Economics

or equivalent experience.

Preferred candidates will have a deep knowledge and several years of work experience in the field of renewable energies, and possess excellent negotiation and interpersonal communication skills.

If you have the passion and talent for this interesting opportunity, please send us your application by email.

LET'S INVEST TOGETHER IN OUR FUTURE

North America LLC

UKA GROUP

UKA Group is headquartered in Meissen, Germany. With a staff of approx. 500 and a turnover of \$500 million (2016), UKA Group is a developer, owner and operator of wind farms in Germany. In 2016, UKA Group was the largest Vestas customer in Germany, and since 1999, it has built more than 40 wind farms.

UKA Group was formed in 1999 and is privately owned. The acronym UKA stands for “Umweltgerechte Kraftanlagen” (“environmentally-friendly power systems”) – entirely in line with the vision of a global energy transition towards a zero emission economy. In the early years, there were many hurdles to overcome; wind energy made up almost none of the power supplied in Germany. Only with the introduction of a feed-in tariff, the Erneuerbare-Energien-Gesetz (“Renewable Energy Law”) in 2000 did the success story of renewable energies begin. This law laid the cornerstone for the energy revolution in Germany. Within a few years, the founders turned UKA Group into a successful planner and operator, which today sets new standards with respect to implementation and efficiency. The holding company is assisted by regional locations. In Germany alone, seven regional offices ensure a direct line on-site to the communities they serve. And the growth has continued: in 2016, UKA Group began its expansion into the US market.

QUICK FACTS

UKA Group’s 2016 turnover is about \$500 million.

In 2016, UKA Group ranked among the top two wind farm developers in Germany* with 200 MW in construction.

UKA Group operates approx. 700 MW, of which it owns 209 MW (September 30, 2016).

In 2016, UKA Group was Vestas’ #1 customer in Germany.

UKA Group is currently installing one of the world’s first Vestas V136-3.6 MW turbines with a hub height of 489 ft in Germany. Commissioning is scheduled for Q3/2017.

UKA Group built the largest GE 120-2.75 MW wind farm in Germany with 456 ft hub height turbines.

UKA Germany has long-term framework agreements with GE and Vestas.

* 2016 Developer Ranking of the trade journal Energy & Management.

UKA NORTH AMERICA LLC

UKA North America LLC (UKA NA), has its offices in Schenectady (New York) and Stuart (Florida) and is managed by Dr. Kay Dahlke and Dr. Ingo Stuckmann.

Through a Joint Venture with Wind Works Power Corp (WWP), UKA NA has acquired a 1 GW pipeline of wind and solar projects, including experienced WWP staff. Managing Director Dr. Ingo Stuckmann and his team have successfully developed four wind farms in the US in the past 15 years – a combined 436 MW.

UKA NA has safe-harbored \$30 million in wind turbines in order to qualify its wind projects for the Production Tax Credit (PTC).
